1. Complete all the levels of main "Introduction Sequence". Report the commands needed to complete "Git rebase" with one line per command.

```
git branch bugfix
git checkout bugfix
git commit -m 'bugfix'
git checkout main
git commit -m 'main'
git checkout bugfix
git rebase main
```

2. Complete all the levels of main "Ramping up". Report the commands needed to complete "Reversing changes in git" with one line per command.

```
git reset C1
git checkout pushed
git revert pushed
```
